HEADQUARTERS FOR Everything Known in Pansies Crop 1907

Lovers of Pansies will find in this list all the latest novelties, as well as all the rare and standard varieties that are grown in the world, many of which cannot be had elsewhere. We have for years surpassed all the leading seedsmen in Pansies, because our stocks are grown and seeded by some twenty-five or more growers and specialists and consequently should not be compared with cheap imported seed from Continental dealers who supply domestic commission houses. Such seed is unfit for florists use.

2703—Bugnot's Superb Giants. See Section 2.
